

Center for Hope and Healing (Therapeutic Services)

PA Child has partnered with the Center for Hope and Healing to provide Therapeutic services. The Center is a trauma informed counseling practice that is specialized and designed to treat children and adults who have become imbalanced from traumatic responses to distressing and/or life threatening event(s) either directly or indirectly, in any facet of functioning and living. We offer hope and healing to children, adolescents, adults and their families. These services are provided at PA Child's location at 3301 West Market Street York PA. Please visit our website www.c4hh.com. You can also contact us at **717-814-5059** or e-mail info@4hh.com.

Renewed Minds (Neurofeedback)

PA Child felt called to specialize in neurofeedback after consistently witnessing the debilitating impact of trauma and other mental health concerns on the youth we serve. With PA Child's mission as the guidepost, we formed Renewed Minds Neurofeedback in 2017 and partnered with the Center for Hope and Healing. We are especially concerned with difficult brain-based problems of childhood through early adulthood which are commonly addressed with psychiatric medications. Neurofeedback may be beneficial for youth and adults for these problems with little side-effects, as well as a broad range of other issues found on our website. PA Child is unique in that we offer 3 different neurofeedback modalities. Please contact our office at **717-850-3662** or e-mail us at Neuro@pachild.org for more information.

About PA Child

PA Child was founded by one of the leading child welfare advocates in the state and country. Consistent with these roots, PA Child implements the best practices in human services. We are proud to have garnered the reputation of operating in alignment with our mission by carrying a **servant-based** attitude in all our work. This mindset extends to our partnerships with clients, providers, families and fellow staff. In harmony with this philosophy, PA Child considers itself to be one big family that values the creativity and input of all members, most importantly the voices of our clients. This collaborative ground up approach has greatly contributed to our ability to recruit quality caregivers, enjoy 100% staff retention and produce excellent outcomes for those we serve. For more information on our programs visit our website at www.pachild.org. You can also contact us at **717-850-3662** or by email at pachildinfo@pachild.org.

Foster Care (Resource Families)

PA Child Resource Parents provide temporary care for children with the ultimate aim of reuniting them with their biological family and whenever possible joining the family's support system. We seek Resource Families who can love and nurture children that are going through a traumatic period in their lives, but are also able to ally with human service professionals in navigating the reunification process. PA Child has found that the best way to produce successful outcomes is to provide adequate support to ensure that you, the Resource Parent, are successful. A foundational part of our foster care program is to include Resource Parents as a member of the professional team.

When Resource Parents have an equal voice, the outcomes are improved for our children and meeting goals set by social services.

Please contact our office at **717-850-3662** or email us at foster-adoption@pachild.org for more information.

Adoption/Permanency through Foster Care

PA Child facilitates adoptions through the foster care system and is a State Wide Adoption Network (SWAN) Affiliate. When children enter foster care, the main goal is to reunite them with their biological parents. However, for many children currently in the foster care system, this is not possible. Fortunately, in Pennsylvania, foster care and adoption services can be provided with little or no cost to your family. **In fact, most adopted children are supported by medical assistance and subsidies**, until adulthood or 21 if adopted after 14 years of age. Please contact our office at **717-850-3662** or e-mail us at foster-adoption@pachild.org for more information.

Family Living

For many adult individuals with intellectual or developmental disabilities (IDD) and autism, there comes a time when their needs can no longer be met in their home of origin. PA Child's Family Living Program can offer a natural home setting where the individual can be properly supported in a **least restrictive environment** possible. This program offers individuals with qualifying disabilities the opportunity to live with a person or family who will share in their life experiences and assist them in meeting their everyday needs and long-term goals. The Family Living Provider may glean the rewards of gaining a life-long companion and the satisfaction of helping another person. Family Living Providers are granted a non-taxable stipend and room and board payments to subsidize household costs and provide for the individual's needs. Please consider contacting us at **717-850-3662** to join our team or e-mail familyliving@pachild.org

Early Intervention

PA Child offers three Early Intervention Services and Special Instruction Services for children age five years and younger. **Attachment and Bonding** – Is an excellent tool for parents involved in the child welfare system to help correct poor parenting practices. **Behavior** – This special assistance helps caregivers learn how to develop strategies that can help manage children who have challenging behaviors caused by trauma or developmental concerns. **Parenting** – This teaches an understanding of child development and encourages good family management practices. All of these services can be referred by local agencies, physicians, or therapists as a means to assist families that need intensive or customized work. Services are provided in the home or community, and are voluntary. Please contact our office at **717-850-3662** or e-mail for more information at earlyintervention@pachild.org.

Interpretation & Translation Services

PA Child is pleased to offer Interpretation/Translation services. These services can be tailored to meet the specific needs and expectations of the requesting agency or principal. Examples of common services rendered are acting as a third party provider to your client, reproducing documents across languages, ensuring signees understanding of forms and documentation, and assisting with facilitation of meetings, conferences, trainings and arbitrations. For additional information on rates and services for interpretation or translation, please contact our office at **717-850-3662** or e-mail us at interpretation@pachild.org.
